Products: **Joggers, jorts, hoodies, and sweaters.The product range may expand to include additional streetwear essentials as the brand develops.**

Brand purpose: **To provide clothing that allows people to express their individuality through distinctive streetwear that combines style, and comfort.**

Visual Identity

Brand Colour Palette

The visual identity of Creamice wears should communicate confidence, sophistication, and bold self-expression. The colour palette should balance the strength of dark tones with subtle luxury-inspired accents.

Primary Colours

- **Jet Black #0B0B0B:** Represents confidence, boldness, and strength. It should serve as the dominant colour across the website and other brand materials.

- **Metallic Gold: #C6A15B:** Adds a refined, luxurious touch. It can be used selectively for accents, buttons, highlights, and other important design elements.

Supporting Colours

- **Off-White: #F5F2EB:** Provides contrast and breathing space, helping the overall design feel clean and sophisticated.
- **Charcoal Grey: #292929:** Adds depth and creates subtle variation within the predominantly dark visual identity.

Colour Application

Jet black should serve as the primary colour, supported by off-white and charcoal grey. Rich gold should be used selectively for accents, highlights, buttons, and other important visual elements. The overall colour application should feel balanced, premium, and consistent with the brand identity.

Typography

The typography system for Creamice wears will combine boldness, modernity, and readability to reflect the brand's confident streetwear identity while maintaining a refined and professional appearance.

Primary Typeface: Oswald

Oswald will serve as the primary typeface for major headings, promotional graphics, product titles, and other prominent brand communications. Its bold, condensed letterforms create a strong visual presence that communicates confidence, strength, and a contemporary urban aesthetic.

Supporting Typeface: Montserrat

Montserrat will serve as the supporting typeface for body text, website navigation, product descriptions, buttons, and other informational content. Its clean, modern

appearance complements Oswald while ensuring readability and visual consistency across digital and print materials.

Overall Typography Direction

The combination of Oswald and Montserrat will establish a clear visual hierarchy, balancing bold visual impact with clean, readable communication. Typography should remain consistent across the brand's website, promotional materials, clothing labels, packaging, and other brand touchpoints.

The ultimate goal is to create a cohesive brand experience that resonates with the target audience, strengthens brand recognition, and provides a solid foundation for the continued growth and development of Creamice wears.
